Re: Introduction to **Rolan Plant Services, Inc.**

Thank you for considering **Rolan Plant Services, Inc.** for your industrial cleaning needs. We are trained and ready to handle numerous cleaning services. Our most popular include vacuum removal, high pressure washing and lancing of all magnitudes, waste disposal, confined space rescue, digester cleaning, efficient detailing on heavily trafficked or used areas, snow plowing, cryogenics cleaning, bin cleaning, sewer rodding, telescoping of collapsed drain or production lines, full scale janitorial services, spill response, parking lot sweeping, street sweeping, grounds keeping, painting, warehouse floor cleaning and transfer of material from one area to another.

**Rolan Plant Services** has worked clearing, rodding and telescoping drainage lines during construction projects, removing product from tanks and wells (to assist with welding and removal projects). Our specialized hydro cleaning tools have helped all of our customers get better flow through their process systems and heat exchangers to maximize grind. We even offer automatic hydro tooling that can be attached and operated from outside bins or tanks, if entry is not possible. Several years ago we added a Street Sweeper and Snow Plow to our fleet. We also have a Cryogenics pressure cleaning system. This is ideal for cleaning areas where waste can not be generated. Cryogenics can also be used on electronic or computerized production equipment. Our customers appreciate having one contractor who can handle 100% of their cleaning needs twenty-four hours a day, seven days a week. As well, our crews are trained and ready to respond to calls twenty-four hours a day, seven days a week and can be in your facility within one hour.

When you are one of the few in the business providing a full range of environmental consulting and contracting services, keeping up with government regulations is a full-time job. At **Rolan Plant Services**, we are committed to staying on top of all the latest regulatory changes, as well as the whole complex maze of liability laws associated with this industry. We have an extensive safety program which includes comprehensive training. Our training includes Confined Space Entry, Lockout/Tagout, Hazard Recognition, Right to Know, and all other OSHA required standards. A majority of our staff is 40 hour Haz-Mat trained, with continual updating and bi-weekly safety meetings and audits. Several personnel are also trained for confined space rescue. The owner and operator of Rolan plant Services has been in this industry for over 16 years. Our safety advisor has his masters in Ag Safety and is instrumental in helping to maximize safe work practices.

Since we started, we have met challenge after challenge in the areas of waste management, on the job safety, and more. We have evolved, we have grown, and we have expanded our range of services and through it all we have remained focused on turning problems into solutions for our clients. Turn to **Rolan Plant Services** for a full range of consulting and contracting services. We offer our services to you twenty-four hours a day, seven days a week. To further discuss our products and services please call us at 1-888-526-0374, or fax us on 765-471-1676. We look forward to working with you to solve your problems.

Thank you,  
**Rolan Plant Services, Inc.**

Jack T. Rolan  
President

ESSENTIAL COMPANIES FOR GETTING THEIR FACTORY BACK UP TO FULL PRODUCTION  
WITHIN A 24 HOUR PERIOD AFTER A FIRE SWEPT THROUGH A SIGNIFICANT AMOUNT OF  
THEIR LAFAYETTE FACILITY. WE CONTAINED AND DISPOSED OF ALL 250,000 GALLONS OF  
FIRE WATER AND DEBRIS. I.D.E.M. HAS ALSO ENLISTED OUR HELP FOR VARIOUS FUEL  
RELEASES.**

# **BIN MASTER TECHNIQUES**

**Rolan Plant Services** team will provide you with the manpower and/or equipment required to complete your Silo Cleanout needs. We have automated tooling that enters the silo and operates alone to free your silo from bridging, ratholing or arching. No vessel is too large or too small with our solutions. **Rolan Plant Services** has performed many silo cleanouts involving the removal of:

- Coal, Cement
- Sugar, Salt
- Lime, Soda Ash
- Pelletized plastic
- Soybean meal
- Animal feed
- And more

**Rolan Plant Services** also has the ability to **High Pressure Clean** with our Automated Tooling and/or our Highly Trained Operators. When you are dealing with Silo or RTO cleaning and have a low threshold limit, our tooling performs the work and is operated from outside the silo or tank, which **eliminates unsafe entry** by personnel.

Do you have a Product you need Transferred from one area to another? Rolan Plant Services has the equipment and personnel you need to save that product. We have special hoses and equipment for all types of products and can safely transfer it without you experiencing loss.

**Our job at Rolan Plant Services is to keep your production running smoothly and solve any production slow downs, as they arise.**
